

WOLF SERENITY™ DECKING

HIGH-DENSITY CELLULAR™ TECHNOLOGY

Spend more quality time enjoying your deck without the fuss of caring for wood. Wolf Serenity™ Decking with High-Density Cellular™ Technology is a low-maintenance decking that provides the color variation and texture of real wood. Its moisture repellency makes it ideal for rainy and coastal regions. Plus it maintains its color, even in the sun, so you can expect long-lasting beauty.

FEATURES AND BENEFITS

- Premium ASA ColorWatch100® Technology provides industry-leading color retention
- Moisture, mold and mildew resistance make it ideal for coastal applications
- Authentic color and texture of real wood
- Resists rotting, delaminating, splitting and cracking
- Strong and durable, yet very lightweight
- Easy to install using traditional and hidden fastening systems
